AUSSIE COMPANY GIVES HOMEOWNERS CHANCE TO WIN \$1 MILLION

An Australian company is giving every homeowner a chance to win \$1 million during February.

The money has been put up by the Modern Group, a leading Australian company specialising in energy efficient building products.

Managing Director Ron Bayley said he expects many homeowners will register for the chance to win \$1 million in the current economic climate.

"A lot of people are doing it tough right now and all the experts say we haven't seen the worst of it yet.

"One million dollars would be a very handy sum for any Australian family, especially at a time of increasing economic uncertainty. All a homeowner has to do is register at www.winwin.com.au this month."

For 30 years, the Modern Group has installed an innovative range of home improvement products – including many that can cut energy bills and greenhouse gas emissions.

"We install solar photovoltaic (PV) roof panels that generate free electricity and roller shutters to keep your home cool in summer and warm in winter. Our Supablock roof coatings reflect heat and keep your home cooler in summer.

"All these products help to reduce electricity consumption and our reliance on coal-fired power," Mr Bayley said.

"Since launching Modern Solar in November 2007, many Australians have seen the financial and environmental benefits of having a solar energy generator on their roof.

"Homeowners are saving hundreds of dollars a year on their power bills, depending on their energy use and the size of the system they install. They're also reducing their reliance on electricity from coal-fired energy plants -- so they're helping cut greenhouse gases while they're saving money."

Mr Bayley said most homeowners are eligible for an \$8,000 rebate from the Federal Government if they install a solar PV system by June 2009 and qualify under the rebate guidelines.

Modern Solar is part of The Modern Group - an Australian company employing around 700 people nationally. Its solar power photovoltaic (PV) systems convert sunlight directly to electricity using solar panels or solar cells mounted on rooftops. The electricity is used to provide power to homes, thus reducing electricity bills, greenhouse gas emissions and consumers' contributions to climate change.

MODERN ROOF RESTORATIONS “CHANCE TO PLAY TO WIN \$1 MILLION” PROMOTION

HOW TO ENTER

To be eligible to enter, individuals must visit www.winwin.com.au, follow the prompts to the competition entry page, input the requested details including their full name, residential address and contact phone number and submit the fully completed entry form between 01/02/09 and 11:59pm AEDST on 28/02/09.

As a condition of entry, individuals must also consent to be contacted by The Modern Group and their related subsidiaries for future marketing and promotional purposes.

Entrants can also invite up to five (5) friends/family members via the “Send to a Friend” form on the website. The invitation will be forwarded as an email to the nominated friend/family member by the nominating friend/family member. The operation of the “Send to a Friend” mechanic is subject to the *Spam Act* 2003.
